The Great Cosmic Mother: Rediscovering the Religion of the Earth

This classic exploration of the Goddess through time and throughout the world draws on religious, cultural, and archaeological sources to recreate the Goddess religion that is humanity's heritage. Now, with a new introduction and full-color artwork, this passionate and important text shows even more clearly that the religion of the Goddess--which is tied to the cycles of women's bodies, the seasons, the phases of the moon, and the fertility of the earth--was the original religion of all humanity.

Research Methods: A Modular Approach

APPROACH Sherri Jackson's RESEARCH METHODS: A MODULAR combines a lively writing style with a novel approach to offer a refreshing alternative for the research methods course. Topics are treated in relatively compact units that, though logically sequenced, can be used in any order. The critical thin

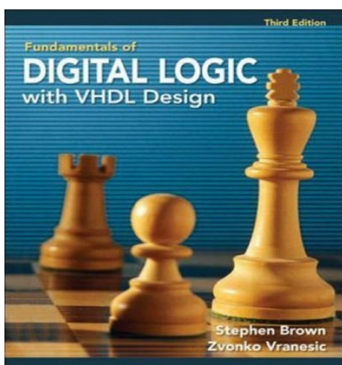

Plunkett's Airline, Hotel & Travel Industry Almanac 2009: Airline, Hotel & Travel Industry Market Research, Statistics, Trends & Leading Companies (Plunkett's Airline, Hotel & Travel Industry Almanac)

The travel industry has been through exceptional upheaval and change. Plunkett's Airline, Hotel & Travel Industry Almanac will be your complete guide to this fascinating industry. After reeling from the effects of the September 11, 2001 tragedies, the travel business is now emerging as a more strea

Promises We Make (Mills & Boon Kimani) (Platinum Brides, Book 3)

Fast-track creative director Niveah Evans is too busy climbing the corporate ladder to think about love. But beneath that hard-driving facade is a woman yearning to make magic with one special man. And when she spies a gorgeous hunk at a bar, she does something totally out of character. . . and ends

Fundamentals of Digital Logic with VHDL Design with CD-ROM

Fundamentals of Digital Logic with VHDL Design teaches the basic design techniques for logic circuits. The text provides a clear and easily understandable discussion of logic circuit design without the use of unnecessary formalism. It emphasizes the synthesis of circuits and explains how circuits

What others say about this ebook:

Review 1:

I actually own 3 copies of this - 2 print (one was sitting free in a book give-away, so I couldn't leave it there!) and the kindle version. This book was my introduction to the subject and it is very informative and quite mind-blowing if you're new to the subject matter (as I was at the time, 10+ years ago). If you want this type information but without the spiritual overtones, then instead read *The First Sex* make sure you get the Davis book and not the one of the same title by Fisher as they're completely different.

Review 2:

A revolution for the woman soul.

Review 3:

Extraordinary mind expanding book. Loved every page.

Review 4:

A very interesting and important read! Found interest in this book after reading *When God Was a Woman* by Merlin Stone.

Review 5:

This is an amazing book that I've checked out of the library a few times But I decided to buy one for myself and other friends... but I have bought this book 3 TIMES hoping that each time it has in it was is promised and that is **NEW COLOR ART! WHERE IN THE HECK IS IT?** It's advertised on the front cover on the lower right hand corner of all three books and alas...**NO COLOR ART** in these books. The one in the library had the color art insert but these do not. I am very disappointed.
