What others say about this ebook:

Review 1:

This book was a great study tool, however nothing that the book covered was on the actual exam. While I did pass the exam, none of the subject matter that this book covers was even mentioned in the exam. I feel that I wasted a lot of valuable study time on this book when I could have used something more relevant.

Review 2:

All you need to study for test!

Review 3:

Passed the test first time with the help of this book. A little lacking in the geography section but other than that it was a great tool. Highly recommend.

Review 4:

I just took the test and passed! I studied this book from cover to cover and took the practice tests and it REALLY helped. Someone else wrote a very detailed review and to add to it:

I agree study the definitions of geographical locations (basin, delta, ect) as that wasn't in this book but it was on the test. The economic section was helpful but kind of dull. I made flashcards with definitions but I watched a ton of Crash Course videos online. The history sections were good but some of it only briefly went over an event (like, legit one paragraph on the civil war). If you read about it but are unsure about it then I advise watching youtube videos and reading more about it from other places. The poli sci section was good, but my degree is in it so that might have been why I didn't need a detailed review. Make sure you know what powers the federal government have vs the state; that was a few questions on the test.

Overall, this book was useful but it did have some grammatical errors. If you buy this book and just google things you need more detail on/watch videos then I am sure you will pass.

Review 5:

I used this book and the Xam book and studied for about 2 weeks solid...several hours a day. Towards the end, getting closer to test date I ditched this book and used only the smaller/compact Xam book because it's just SO information and I didn't have enough hours in the day to finish it. I only had time to get through one practice test. I did not give myself enough time for this daunting task. And very sadly, I did NOT pass. I am strong at economics and political science but weak at both American and World history. I will retest in a month and this time I will study THIS book and a lot longer. Good luck to those taking this exam, it is a LOT of information to soak up (thousands of years, clearly). Don't make the mistake and believe that you know this stuff, or that it's common sense, without studying hard.
