**What others say about this ebook:**

**Review 1:**

**This book comes under "Things you need to now as a human being" category aimed specifically at the male market, or for those brought up by Mommie Dearest, who did everything for her little darlings, teaching them nothing of self-care and maintenance.**

**Review 2:**

**How to Destroy Your Own Darn Life: The Dishonorable Husband Handbook Featuring Over 50 Foolproof Ways to Worry, Wither & Wreck Your Wife**

**Personally, I prefer to have a genuine, honest, honorable, loving, respectful relationship with my wife.... rather than the phony, dishonest, dishonorable, fake, disrespectful marital relationship that Mr. Boreth advocates.**

**Buy this book if you need a foolproof way to speed through marriage straight to divorce. I wish I would've looked at the table of contents before I purchased this divorce manual based only on the witty cover; I like being married so this was a terrible waste of my money.**

**Too bad I'm forced to give it one star in order to post my review.**

**Review 3:**

**Shameful, really. Women don't want a man who lies, hides things, says one thing while thinking another...this is a crap book and the men who follow its "advice" are just going to further damage their relationships by sinking deeper into laziness, crassness, and immaturity. Lying about anything will never ever help a relationship. Above all, women want honesty and loyalty- this book has none of that. I'd say leave it on the shelf at the library, but it really belongs in the trash for all it's worth.**

**Take a look at all the other reviews. The five stars are written quite immaturely by people who find lying and deception funny. The one stars seem to have much more depth and experience behind them. Be wise and follow after experience- you'll have much less heartache that way.**

**Review 4:**

**Where do I even begin to describe my disgust at this book? Why would I want a man who was pretending to be something he isn't. There should never be anything hidden in marriage?especially not porn or lust. Please don't read this if you really want a genuinely loving marriage.**

**Review 5:**

**My husband picked up this book hoping to find ways to strengthen our marriage and be a better husband. We were both severely disappointed. With chapters such as "How to hide your porn" and "How to pretend not to look at other women" this book doesn't seem like it will be much of a self-help guide unless you want to know how to ruin your marriage the quickest. If you are interested in having a stellar, fulfilling, happy marriage, you would do well to look elsewhere, you won't find it with this advice.**
