What others say about this ebook:

Review 1:

Handy book of worksheets that will help any writer organize their ideas and novel better!

Review 2:

This workbook is the perfect tool for new writers to plot out their story. The author has produced a first class workbook. I can't wait to get the pdf's that enable the user to use over and over instead of writing in the original book.

Review 3:

I've been wanting to write a novel for YEARS now but didn't know how to stay organized or where to even start. I was ecstatic when my workbook came in the mail! I started looking through the pages and kept thinking 'this is such an amazing book, how much more could they possibly put in it!?' The further you go into the book the better it gets. As a future high school English teacher, I cannot wait to utilize this workbook's many helpful pages for personal enjoyment as well as in the classroom. I HIGHLY recommend this amazing creation.

Review 4:

The title says it all and it really is ultimate. The worksheets cover everything from the first brain dump of scribbled ideas to a chart of Publisher contacts where you can keep track of submissions. There are a couple of worksheets for things I've never read about in a how to write a novel book: book covers. A place to keep track of book cover research in your genre, a place to draw or paste pictures of your desired book cover, front and back.

I really like the journal pages for tracking my writing and word counts and the character list summary, so I can keep track of where and how my characters show up in my story. The research notes sheets will be very handy since I write mysteries and have to look up weapons and poisons.

My only complaint is that this book is not bound in a way that you can easily scan the pages for future use. It's a regular book with a spine. The pages aren't perforated, either. There is nothing to make it lie flat and open.

UPDATE: the author came through with the pdf of printable pages, as it says in the front of and on the back cover of the book! Thanks!

Review 5:

I have been searching for something like this for a LONG time. You can keep track of your writing schedule, characters, chapters, and timeline. Has plenty of room for extra notes. I bought a second one for a new series I'm starting soon. This is just so awesome. Seriously. If you need to keep track of stuff, this is for you.
