What others say about this ebook:

Review 1:

I quite like this book. It has some wonderful pictures in it. The only thing I was a bit disappointed with was the dust cover of the book was very dirty. I light wiping over of the book would not have gone astray.

Review 2:

There are few books as charming as this one and it is destined to become a collector's item. My hat's off (of peacock feathers and snakeskin) to the author!

Review 3:

This whimsical catalog of clothing for faeries suspends our disbelief in the magical world of fantasy. Built like a catalog we might get from a high end clothing store, but distinctly different in that it's for tiny fairy people, this book offers fun fashions made out of petals, leaves, shells and seeds. The book is an art book in disguise and will inspire anyone who is interested in art or fashion. The clothing featured here are not drawings, but photographs of actual creations made "in the house of Ellwand" -- I found this book in a second hand bookstore and loved it. My daughter, who is into fairies wanted to run outside and find a collection of feathers and leaves to make her own fairy clothes. The layout of this book brings surprises as well with unique page layouts, fold out catalogs and even envelopes featuring the queens gown. If you love fantasy and crafts, this book is the perfect marriage of the two.
