What others say about this ebook:

Review 1:

I really liked it.

Review 2:

Love this series!

Review 3:

Paid 7.99 for the kindle version of this book and was shocked at how short it was. I read this in 20 minutes and if it was really 272 pages than I must have taken a course in speed reading. Just a rip off and I enjoyed her other stories.

Review 4:

This is basically a short story in the Highlander series. It also includes an exert from the author about her process of writing the series and an addition storyline about Dageus.

Worth reading, but definitely not an audio book purchase in my opinion. It also includes an exert from her other series, which I look forward to reading. This series has been a refreshing, unique read in romance!!

Review 5:

Buyer beware! Just a short story. Poor marketing.
