Hidden Deep: Book 1 of the Hidden Trilogy (Volume 2)

Give in to the Glamour... Sixteen-year-old Ryann Carroll has just run into the guy who saved her life ten years ago. You might think she'd be happy to see him again. Not exactly. She's a bit underdressed (as in skinny-dipping) and he's not supposed to exist. After her father's affair, all Ryann wants is to escape the family implosion fallout and find a little peace. She also wouldn't mind a first date that didn't suck, but she's determined not to end up like her mom: vulnerable, betrayed, destroyed. Ryann's recently moved back to her childhood home in rural Mississippi, the same place where ten years earlier she became lost in the woods overnight and nearly died. She's still irre

What others say about this ebook:

Review 1:

Fell in love with the book by the middle of the first chapter. My curiosity was a constant battle. I did not want to put the book down. In fact, I bought the other 4 books before I was done with the 2nd chapter. I loved how there was a relationship from childhood that years later was revisited. What was a bad memory turned out to be one of the best Ryann could have had, even if nobody believed her. The world she was being introduced into would forever change her. If you are a Fae lover, this series is a must read.

Review 2:

I was hooked immediately. Lots of characters to love and despise. The world unfolds more and more. The prince was a little naive for me but he was sheltered. Sadly you only trust yourself with some many keeping secrets, secrets that change your life.

Review 3:

This book was the best read I have had on a long time. It reminds me very much of Twilight. I could not put it down.

Review 4:

This book is amazing! Became obsessed with the whole saga! Love!

Review 5:

A good read... I'd classify it as a paranormal romance, and the story was well written. I think that the story picked up slowly at first, but you are drawn in and really do want to know what happens next, the book was really hard to put down. I will download the next book in the series. I don't want to give away too much in the premise, but I'm fantasy storyline addicted, and this was a fun new direction for some older ideas. I recommend this book.
