What others say about this ebook:

Review 1:

This is a fantastic collection of folktales. They come from all over the world, with some familiar and others not. Most are excellent for reading out-loud, and my children enjoy listening to them.

The only complaint I have is that I purchased a copy after borrowing the book from the library, and while both the library copy and the one sent from Amazon are paperbacks, the copy I received is printed on very cheap paper, bordering on newsprint. I'm doubtful the pages can hold up to many years of reading.

Review 2:

We have read a few of these stories and they are all well written. This is such a fantastic collection and I like how the stories are grouped by region. Definitely a good addition to a child's collection of literature!

Review 3:

so many great tales

Review 4:

I really enjoyed reading this books. Although some can be a bit slow, I like the twists that you normally don't get.

Review 5:

Best folktales ever! Fun to read for all ages. Recommend for school teachers!
